### WHY PICK SICILY....

Simona indicates that there are so many reasons why, and we believe her! From the sunny southern weather, multi-coloured beaches and majestic mounts. Also, let's not forget the layer upon layer of history that you'll especially come across in main cities like Palermo, Siracusa and Agrigento. We can't deny that the hospitality is top-notch, and most of all, the culinary abundance is unparalleled. Sicily is a land you'll surely never forget.

### SIMONA'S TOP TIPS:

Pick the right time of year. Try to plan your wedding outside of the peak periods. Try to give yourself more choice when it comes to wedding dates. Think about accessibility for your family and

friends. Ask yourself questions like: How far is the airport? Hire a wedding planner who knows the area and trust them.

Organise a wedding day timeline. Your planner will help you with this. It can make a difference and minimise the stress of your big day.

Always have a plan B, especially if the weather acts up.
